30 Houses have been erected by the Council since my last Report but overcrowding is non-existent at present. At the same time there is a lack of modern conveniences (such as bathrooms) in the older type of working class houses. The rental of the new houses which have recently been erected by private enterprise is beyond the means of the ordinary working man.

I am, Gentlemen,

Yours faithfully,

F. P. LAMEN,
Medical Officer of Health.

June, 1938.

TO THE CHAIRMAN AND MEMBERS

of the

URBAN DISTRICT COUNCIL OF TORPOINT.

Gentlemen,

I have the honour to present to you the Annual Report of the Health of Torpoint for 1937.

The live birth rate of the District is slightly lower than for 1936 being 15.00 per 1,000 population, compared with 14.90 for England and Wales; and also compared with 15.60 for 1936 for Torpoint.

The death rate of the District is 15.26 and is much higher than that of England and Wales which is 12.40.

The high figure in the death rate as compared with that of England and Wales is due to deaths from senility being 14 out of a total number of 57. Majority of cases were from the Torpoint Public Institution.

The infant mortality and still birth rates are much lower than those of England and Wales, there being only one still-birth during the year.

There have been no deaths in consequence of child-birth; one infant under one year of age died.

There were 7 deaths from Cancer, and 1 new case of Tuberculosis and one death.

No houses have been erected by the Council since my last Report but overcrowding is non-existent at present. At the same time there is a lack of modern conveniences (such as bathrooms) in the older type of working class houses. The rental of the new houses which have recently been erected by private enterprise is beyond the means of the ordinary working man.

I am, Gentlemen,

Yours faithfully,

F.P. LAUDER,
Medical Officer of Health.

ANNUAL REPORT,

1937.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area (in acres) - 1324.

Population at 1931 census - 3971.

Registrar-General's Estimate of Resident population 1937 - 3735.

Number of inhabited houses - 897.

Number of families or separate occupiers - 1138.

Rateable value £19,417.

Sum represented by a penny rate - £77.

Social conditions, chief occupations of the inhabitants,
and the influence of any particular occupation on the
public health - No change.

Extracts from vital statistics of the year :-

	Total	M.	F.) birth rate per) thousand of the) estimated resident) population - 15.00)) rate per thousand) total (live and) still-births) 15.26
Live births - Legitimate	53	22	31	
Illegitimate	3	1	2	
Still births - Legitimate)	1	1	0	
Illegitimate)				
Deaths -	57	23	34) Death rate per) thousand of the) estimated resident) population - 15.26
Deaths from diseases and accidents of Pregnancy) and Child-birth)				From Sepsis - Nil From other causes - Nil

This, again, reflects great credit on the medical and
Midwifery professions.

Deathrate of infants under one year of age :- 1 Male = 1.

All infants per thousand live-births	-	.018
Legitimate infants per thousand) legitimate live-births)	-	18.86
Illegitimate infants per thousand) illegitimate live-births)	-	Nil.

Deaths from Measles (all ages) - Nil.
" " Whooping Cough (all ages) - Nil.
" " Diarrhoea (under 2 years of age) - Nil.

There were 7 deaths from Cancer in 1937 in the District,
2 female and 5 males.

All measures practicable for treatment of Measles,
Influenza and Whooping Cough, under the Public Health Acts,
have been authorised by the Council, including Hospital,
Medical and Nursing assistance.

We are again indebted to the Naval Health Officer for
weekly returns of infectious diseases in the Port.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

Hospitals provided or subsidised by the Sanitary Authority or by the County Council :-

A. (1) Fever. As in 1929.

(2) Smallpox. As in 1929.

B. (1) Tuberculosis :

(a) Pulmonary. As in 1929.

(b) Non-Pulmonary. As in 1929.

(2) Maternity. As in 1929.

(3) Children. As in 1929.

(4) Other. As in 1929.

Institutional provision for unmarried mothers, Illegitimate infants, and homeless children in the area - as in 1929.

Ambulance facilities As in 1929.

Clinics and Treatment Centres :-

There is no Maternity and Child Welfare Centre, Day Nursery, School Clinic, Orthopaedic Clinic, or Artificial Light Clinic available in the District.

Tuberculosis Dispensaries and Treatment Centres are as in 1929.

Public Health Officers of the Local Authority :-

Medical Officer of Health :- F.P. Lauder, L.R.C.P., L.R.C.S., D.P.H. (Ed.), Tregantle Fort, near Torpoint. Part time. £32.10s.0d. Salary Contribution by Exchequer Grants.

Sanitary Inspector :- George Rodley, M.I.M. & Cy.E., A.R.San.I. Also Surveyor and Water Engineer. Part time. £82.10s.0d. Salary contribution by Exchequer Grant. 7 Coryton Terrace, Torpoint, and Council Chambers, Torpoint. 'Phone :- Torpoint 10.

Nursing in the Home :-

(a) Torpoint and District Nursing Association is affiliated to the County Nursing Association.

(b) Infectious Diseases (Measles, etc.) - Nursing can be arranged by the Medical Officer of Health, and is provided by the Sanitary Authority.

Midwives :-

Torpoint and District Nursing Association is subsidised by the Sanitary Authority, and employs a midwife. One midwife practises in the District.

Maternity and Nursing Homes :-

The County Council is the Local Supervising Authority under Acts relating to the registration of Maternity and other Nursing Homes.

Infectious Diseases :-

In accordance with the Scheme prepared by the Cornwall County Council and approved by the Ministry of Health on February 9th, 1935, the Council have, in conjunction with the Borough of Saltash and the Rural District Council of St. Germans, entered into an agreement with the City Council of Plymouth for accommodation for 13 Beds to be reserved for patients from the Borough, Urban and Rural Councils jointly.

SANITARY CIRCUMSTANCES OF THE AREA.

(A) Water Supplies - The quantity and quality have again proved excellent during 1937. Chlorination was done during the dry periods as a precautionary measure. It was not necessary to curtail supply by night, during the year.

(B) Rivers and Streams are specially inspected to detect any pollution which might be present or threatened.

(C) Drainage and Sewerage - There were no extensions.

(D) Closet Accommodation - No change since 1929.

(E) Scavenging. 46 new refuse bins were provided in 1937.

Disposal of Dry Refuse :-

The requirements of the Ministry of Health are being complied with, and controlled tipping is being carried out. A site is being levelled up, which will eventually become a Pleasure Ground adjacent to the Council's other Pleasure Grounds.

(F) Sanitary Inspection of the Area :-

(a) The total number of inspections in 1937 was 354.

(b) Informal notices and personal interviews 75.

Three Statutory Notices were served and complied with.

(c) 74 were remedied. 1, work in hand.

The Report of the Sanitary Inspector, 1937 :-

Visits to premises	329
Tests applied to house drains	13
Notices served to abate nuisances	33
Notices complied with	32
Visits to premises in connection with infectious diseases	8
Premises disinfected	10

Inspection of Dairies, Cowsheds and Milkshops	...	224
Inspection of Slaughter houses		247

GENERAL SANITARY WORK EFFECTED.

Number of drains laid or repaired	...	25
Choked drains cleared	...	6
Soil pipes and vent shafts fixed or repaired	...	22
New water-closet pans fixed	...	18
Inspection chambers constructed (new)	...	15
Flush cisterns fixed or repaired	...	25
Surface of courtyards, etc., relaid or repaired	...	2
Refuse bins provided	...	46

(G) Smoke Abatement - As in 1929.

(H) Premises and occupations which can be controlled by
Bye-laws or Regulations :-

Travelling shows are not encouraged to set
up in the Town.

(I) Other sanitary conditions requiring notice - Nil.

Arrangements for the disposal of the dead. The remaining
portion of the Cemetery has been consecrated during
the year.

(J) Schools :- No defects were reported, and the general
cleanliness is good. Towels, cloak rooms, and
lavatory basins and water closets are in a cleanly
state. Water supply is adequate.

T A B L E 1.

VACCINATION RETURNS.

T O R P O I N T.

1937	56	4	21	1	30	7

H O U S I N G.

The Chief points noted in the Inspections were :-

Damp walls.
Leaky roofs.
Defective flues.
Defective W.C. cisterns.
" wooden floors.
" Light and ventilation.

The general cleanliness of the houses was good.

THE COUNCIL HAVE BUILT NO HOUSES.

T A B L E 2.

NUMBER OF NEW HOUSES ERECTED DURING THE YEAR.

- | | |
|--|------|
| (a) Total including numbers given separately under | 11 |
| (b) With State assistance under the Housing Acts :- | |
| (1) By the Local Authority | Nil. |
| (2) By other bodies or persons | Nil. |

1. INSPECTION OF DWELLING HOUSES DURING THE YEAR.

- | | |
|--|-----|
| (1) Total number of dwelling-houses inspected
for housing defects (under the Public
Health or Housing Acts) | 354 |
| (2) Number of dwelling-houses (included under
sub-head (1) above which were inspected
and recorded under the Housing
Consolidated Regulations, 1925) ... | 325 |

- | | |
|---|------|
| (3) Number of dwelling-houses found to be
in a state so dangerous or injurious
to health as to be unfit for human
habitation | Nil. |
| (4) Number of dwelling-houses (exclusive of
those referred to under the preceding
sub-head) found not to be in all
respects fit for human habitation | 17. |

2. REMEDY OF DEFECTS DURING THE YEAR WITHOUT SERVICE OF FORMAL NOTICES.

Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their Officers 	42
--	----

3. ACTION UNDER STATUTORY POWERS DURING THE YEAR.

A. Proceedings under the Housing Act, 1936.

- | | |
|---|------|
| (1) Number of dwelling-houses in respect of
which notices were served requiring
repairs | 3 |
| (2) Number of dwelling-houses which were
rendered fit after service of formal
notices :- | |
| (a) By Owners | 3 |
| (b) By Local Authority in default of Owners | Nil. |
| (3) Number of dwelling-houses in respect of
which Closing Orders became operative
in pursuance of declaration by Owners
of intention to close ... | Nil. |

B. Proceedings under Public Health Acts :-

- | | |
|---|------|
| (1) Number of dwelling-houses in respect of
which notices were served requiring
defects to be remedied ... | 33 |
| (2) Number of dwelling-houses in which
defects were remedied after service of
formal notices :- | |
| (a) By Owners | 32 |
| (b) By Local Authority in default of Owners | Nil. |

C. Proceedings under Sections 19 and 21 of the Housing Act, 1930 :-

- | | |
|--|------|
| (1) Number of dwelling-houses in respect of
which Demolition Orders were made | Nil. |
| (2) Number of dwelling-houses demolished in
pursuance of Demolition Orders | Nil. |

D. Proceedings under Section 20 of the Housing Act, 1930 :-

- | | |
|---|------|
| (1) Number of separate tenements or under-
ground rooms in respect of which
Closing Orders were made ... | Nil. |
|---|------|

(2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit	...	Nil.
---	-----	------

E. Proceedings under Section 3 of the Housing Act, 1925 :-

(1) Number of dwelling-houses in respect of which notices were served requiring repairs	...	Nil.
---	-----	------

(2) Number of dwelling-houses which were rendered fit after service of formal notices :-

(a) By Owners	...	Nil.
(b) By Local Authority in default of Owners		Nil.

F. Proceedings under Sections 11, 14 and 15, of the Housing Act, 1925 :-

(1) Number of dwelling-houses in respect of which Closing Orders were made		Nil.
--	--	------

(2) Number of dwelling-houses in respect of which Closing Orders were determined, the dwelling-houses having been rendered fit	...	Nil.
--	-----	------

(3) Number of dwelling-houses in respect of which Demolition Orders were made		Nil.
---	--	------

(4) Number of dwelling-houses demolished in pursuance of Demolition Orders		Nil.
--	--	------

INSPECTION AND SUPERVISION OF FOOD.

(a) Milk Supply :-

Inspection of Farms and Dairies were made as follows :-

Farms	...	26
Dairies and Milkshops	...	232
Number of Dairy Farms	...	3
" " Dairies and Milkshops		9

The Structural requirements under the Milk and Dairies Order, 1926, are fulfilled.

No matters arose under the Milk (Special Designations) Order, 1923, to which we might call attention.

Eight samples of milk were taken and found to be of very good quality.

(b) Meat and other Foods :-

There are three registered Slaughter-houses as in 1930.

275 Inspections of slaughter-houses were made in 1937.

Meat Shops (4).

There are no Stalls, and all meat is kept behind windows.

Two Fried Fish Shops are under constant supervision.

(c) Adulteration, etc. :-

No cases of food or milk adulteration have been reported.

No action was taken in 1935 under the Public Health (Condensed Milk) Regulations 1923 and 1927, and Public Health (Dried Milk) Regulations 1923 and 1927.

The milk and Dairies Orders are efficiently carried out.

(d) Chemical and Bacteriological Examination of Food :-

No samples have been sent for analysis.

(e) Nutrition :-

Beyond literature issued by the Health and Cleanliness Council, no action taken.

PREVALENCE OF AND CONTROL OVER INFECTIOUS
AND OTHER DISEASES.

G E N E R A L.

There were 17 cases of infectious disease notified in 1937, of which 4 Scarlet Fever, 3 Erysipelas, 9 Pneumonia and 1 Diphtheria. There were 3 deaths from Pneumonia.

Anti-toxic Sera and outfits are stocked at the local Chemist's shop.

There were 2 sputa examined for tubercle bacilli, in which none were returned as positive.

There was no blood examined for typhoid or paratyphoid.

There is no maternity and child welfare centre in Torpoint, at which diagnostic tests or immunisation against scarlet fever and diphtheria could or can be carried out, and the free facilities offered by the Council, through the Medical Officer of Health, of the Schick and Dick tests respectively for these diseases and immunisation against them are not availed of by the public.

No persons presented themselves or were sent, for primary vaccinations, or re-vaccinations by the Medical Officer of Health under the Public Health (Smallpox Prevention) Regulations, 1917.

There are no facilities for the disinfection of verminous persons or their belongings or for the disinfection of articles exposed to infection, other than formalin vapour, but there have been no "return" cases of scarlet or other fevers after formalin disinfecting of the rooms, clothing, etc.

BRANCH LIBRARY.

The Librarian is informed of every case of infection in the home and books are destroyed and a certificate given to the Local Librarian.
